

Thales' Ken Brady Receives the APEX Outstanding Contribution Award

Ken Brady

September 12, 2011, SEATTLE, WA - Thales, a leader in In-Flight Entertainment and Connectivity systems, announced that Ken Brady, Chief Design Engineer and Technical Director at Thales, was awarded the honorary 2011 Outstanding Contribution Award. The award is given to an individual whose contributions, innovations and leadership has generated a very significant and fundamental improvement to the nature of in-flight entertainment and connectivity systems.

Ken has 34 years of experience in the engineering field with 24 years specifically dedicated to the development and deployment of in-flight entertainment and service systems. His background includes hardware design, software design, and systems engineering. He has been a participant in the ARINC Cabin Equipment Interfaces/Cabin Systems Subcommittee for more than 21 years and is also a participating member of the Airline Passenger Experience (APEX) Technology Committee. His current assignment is as Chief Design Engineer and Technical Director for the development and evolution of Thales TopSeries in-Flight Entertainment systems.

The IFE market knows Ken as a key contributor to the development of IFE industry standards and technologies for decades. His enthusiasm about the industry remains consistently strong and he has contagious positive energy. Remarkably knowledgeable, his visions turn into real world IFE solutions that truly satisfy market needs. He's inspirational.

Ken's contributions advance the industry from both a passenger experience and airline operations perspective. System designs are faster, smaller, lighter, more capable and reliable. He is an innovator that listens, brainstorms and creates with a passion that pushes boundaries.

Visit Ken at the Thales Booth #1401.
